

Concrete Stair Temporary Handrail Solution

You've stripped the stair forms and you're left with several dangerous fall hazards.

You have several options. *So what should you do?*

Preformed concrete stair flights and landings are one of the most difficult situations to protect around all open edges.

SAFETY MAKER, INC. has the solution for you!

The VersiShield® Guardrail & Stair Rail System easily clamps onto the unprotected concrete stair edge without drilling or damaging the stairway structure.

- ◆ **No Drilling Or Patching Holes Required**
- ◆ **Easy Installation - Instructions Included**
- ◆ **OSHA Compliant - Safe And Reliable**
- ◆ **Stress Engineering Report Available**
- ◆ **Fully Reusable On Next Level Or Project**
